Color in Your Spring Garden!

Darwin Tulip
City of Haarlem

Spring-flowering bulbs are just about the most satisfactory things that you can plant. They give you plenty of cheerful color outdoors just at the time when you think you cannot bear another dull, gloomy day, and they require no care in the way of weeding, dusting and spraying. The forethought necessary to see that they get planted in the fall is all that is needed. After their glorious burst of bloom is over, spring bulbs then gracefully retire from the picture, yielding their space to the annuals that you may choose to replace them, or to the perennials and shrubs that need more time to come into full growth and bloom.

This catalogue offers plenty of variety in the way of Tulips and Narcissus, with the charming miniature bulbs to be planted in great drifts. As a foretaste of spring, we also offer many very fine bulbs for indoor growing. Thus it is possible to enjoy spring bulbs for several months of the year.

This catalogue is offered subject to being unsold upon receipt of order.

TERMS. Prices quoted are net. We prepay transportation for cash with order.

SUBSTITUTES. Should the stock of any variety ordered be exhausted, we shall, to save delay, send in its place the most suitable substitute, unless instructed to the contrary.

NON-WARRANTY. We give no warranty, express or implied, as to the productiveness of any bulbs we sell and we will not be in any way responsible for the crop.

EARLY ORDERING. Your cooperation is invited. Placing orders early will facilitate delivery at the proper time.

Hunt's Recommend

Our general list contains the best and the finest current varieties of bulbs to plant in the fall of 1947. To those "seasoned" horticulturists who "know the book," who have enjoyed all the currently popular kinds in past years, who wish to look at the newer

introductions, the following list is offered. It is gleaned from the special notes of breeders and growers in many lands. Many of them have been grown and examined in our 1947 trial plantings. All these newcomers are sure to please you greatly.

For Daffodils, you may try:

Aeolus	Mrs. E. H. Krelage
Beersheba	Mrs. R. O. Backhouse
Gracieuse	Robert Sydenham
John Farquhar	Van Waveren's Giant

For a Special Treat

Plant 6 bulbs of Hunt's Lucienne for \$3.75
This is a Daffodil you will love for years.

For a Grand Return at Small Cost

We suggest for 1947 fall planting:
25 Charles Needham Tulips 25 Glacier Tulips
50 Top-size Tulips for \$6.00

To Welcome Spring, Plant right in the Lawn

25 Snowdrops 25 White Crocus
25 Blue Squills 25 Yellow Crocus
100 Bulbs for \$6.00

Plant them out in the lawn—lift the sod with any sharp pointed instrument, push the bulb under, step lightly on the spot, and forget them until next March.

Among the Tulips you will enjoy:

Albino	Red Champion
Belle Jaune	Tantalus
Charles Needham	Uncle Tom

For Hyacinths we recommend:

Grand Maitre	L'Innocence
Myosotis	Early Derby
City of Haarlem	Royal Scarlet

Giant Darwin Tulips

Selected Top-Sized
Bulbs Only

THE CREAM OF THE BEST DUTCH-GROWN VARIETIES

Darwin Tulips are increasing in popularity every season. Colors range from white to purplish black, including shades of crimson, violet, brown, rose, etc. Very effective for planting in shrubbery or in hardy plant borders. The flowers are large, deeply cupped, and are borne on lofty stems which are ideal for cutting and vase use. Gorgeous combinations of color can be made by planting them in broad masses or long, narrow borders. To avoid striking contrasts, use tones of bronze and pale violet with the lavenders—and soft pinks and lavenders, shades which merge

into each other and do not clash as violently as the usual red and yellow. If striking effects are desired, try *Bleu Aimable* in front of *City of Haarlem*, a vivid, odd, *French* combination of blue and scarlet; or an even more effective combination of some pale yellow, like *Belle Jaune* (*Cottage Tulip*), with a deep red-purple variety, *La Tulipe Noire*. The new pale yellows are also good with dark red varieties. Brilliant reds like *Eclipse* and *William Pitt* are best used alone, or against an evergreen background. Dark pinks are good with light pinks and white varieties.

Breeder Tulip,
Indian Chief

Pre-cooled Bulbs

The bulbs are dug as usual, cured for two to three weeks, graded and then placed in a temperature of 50° Fahr. from six to eight weeks. Storage at this temperature makes normally late-flowering varieties *early* and early sorts *much earlier* and *easier to force*; in fact, they require only six to eight weeks

from planting to full bloom. Pre-cooled Bulbs should be potted promptly on receipt and kept in a cool place for proper root-action. On or about November 25, sample pots or flats should be removed to greenhouse or frames to see if they are ready to grow buds and foliage.

Pre-cooled Tulips

Hardy Garden Lilies

FOR FALL PLANTING

All Lilies do not like the same conditions. The one universal requirement is absolutely perfect drainage. The loose, scaly bulbs which Lilies produce are susceptible to rot in wet soil, and it will pay to go to some pains to be sure that the ground for them is properly drained. When Lilies are well established in the garden, it is well to feed them with a top-dressing of manure after the tops have died down in the autumn. It is better to omit manure from the Lily-bed before planting.

AURATUM. The Golden-banded Lily. One of the stateliest of all the hardy Lilies; grows 3 to 6 feet high and bears twenty or more large and fragrant flowers 8 to 10 inches in diameter. Flowers white, spotted deep red, with bright yellow band running through the center of each petal, in August. Mammoth Bulbs, XXX, \$2.00 each; \$18.00 per doz.

HENRYI (Yellow Speciosum). 4 to 5 ft. In form and habit resembles *L. speciosum*. Flowers shaded yellow, slightly varying in color, with a distinct and waxy green center. Blooms during August and September. \$11.00 per doz.; \$70.00 per 100.

CANDIDUM. Madonna Lily. The bulbs we offer are the true, hardy, French grown. They should be planted in September, in groups of from 3 to 6 dotted among the taller-growing perennials. They make their leaf-growth in October, then die down and bloom late the following June—stately spikes of large, white, fragrant flowers with yellow anthers. Specially Selected Top-sized Bulbs, XXX, \$12.00 per doz.; \$80.00 per 100. Mammoth Bulbs, XX, \$9.00 per doz.; \$60.00 per 100.

PHILIPPINENSE FORMOSANUM. The white hardy Lily. The very fragrant trumpet flowers resemble an Easter Lily. \$7.50 per doz.; \$52.00 per 100.

REGALE. 3 to 5 ft. The finest and most easily grown Lily, producing large, flared trumpets suffused with gold and yellow on the inside and slightly stained with purple on the backs of the outer petals. The stem is stout and very wiry, so that the plant takes up very little room after flowering. Blooms immediately after the Madonna Lily and is one of the finest plants to be found in gardens. Giant Bulbs, XXXX, 12-14 in., \$13.00 per doz.; \$90.00 per 100.

Selected Bulbs, XXX, 11-12 in., \$9.00 per doz.; \$65.00 per 100.

Large Bulbs, XX, 9-10 in., \$7.00 per doz.; \$50.00 per 100.

Selected Bulbs, X, 8-9 in., \$6.00 per doz.; \$40.00 per 100.

Lily-of-the-Valley

SPECIOSUM ALBUM. 3 to 4 ft. Very dainty white Lily. flowers in the border or amongst the shrubbery at the same time as *L. auratum*. Extra-large Bulbs, \$16.00 per doz.; \$120.00 per 100.

Large Bulbs, \$13.00 per doz.; \$95.00 per 100.

SPECIOSUM MELPOMENE. Large, dark crimson-spotted flower of striking appearance. Mammoth Bulbs, \$15.00 per doz.; \$115.00 per 100.

Extra-large Bulbs, \$11.00 per doz.; \$85.00 per 100.

SPECIOSUM RUBRUM. 3 to 4 ft. Bears an abundance of spotted rose flowers. Mammoth Bulbs, \$15.00 per doz.; \$115.00 per 100.

Extra-large Bulbs, \$11.00 per doz.; \$85.00 per 100.

TESTACEUM (*L. excelsum*). Nankeen Lily. Orange anthers; drooping flowers. Plant shallow in autumn. Very attractive. Bulbs scarce. \$2.75 each; \$27.00 per doz.

TENUIFOLIUM. Coral Lily. Drooping, rich scarlet flowers. \$3.50 per doz.; \$25.00 per 100.

TIGRINUM SPLENDENS. Tiger Lily. 3 to 4 ft. Well known by its brilliant orange flowers spotted with maroon and black. \$5.50 per doz.; \$40.00 per 100.

TIGRINUM FLORE-PLENO. Double-flowering Tiger Lily. \$5.50 per doz.; \$40.00 per 100.

Plant Plenty of Bulbs This Fall for a Lovely Display of Color Next Spring!

Daffodils and Crocus may be planted outdoors between September and mid-October, Tulips in late October, and Hyacinths from September to December. Be sure to plant the bulbs at a uniform depth. The easiest way to do this is to remove all soil from the bed to the depth required, set the bulbs, then carefully replace the soil. In using a trowel or dibble for the job, great care should be taken to see that the base of the bulb is pressed firmly into the soil.

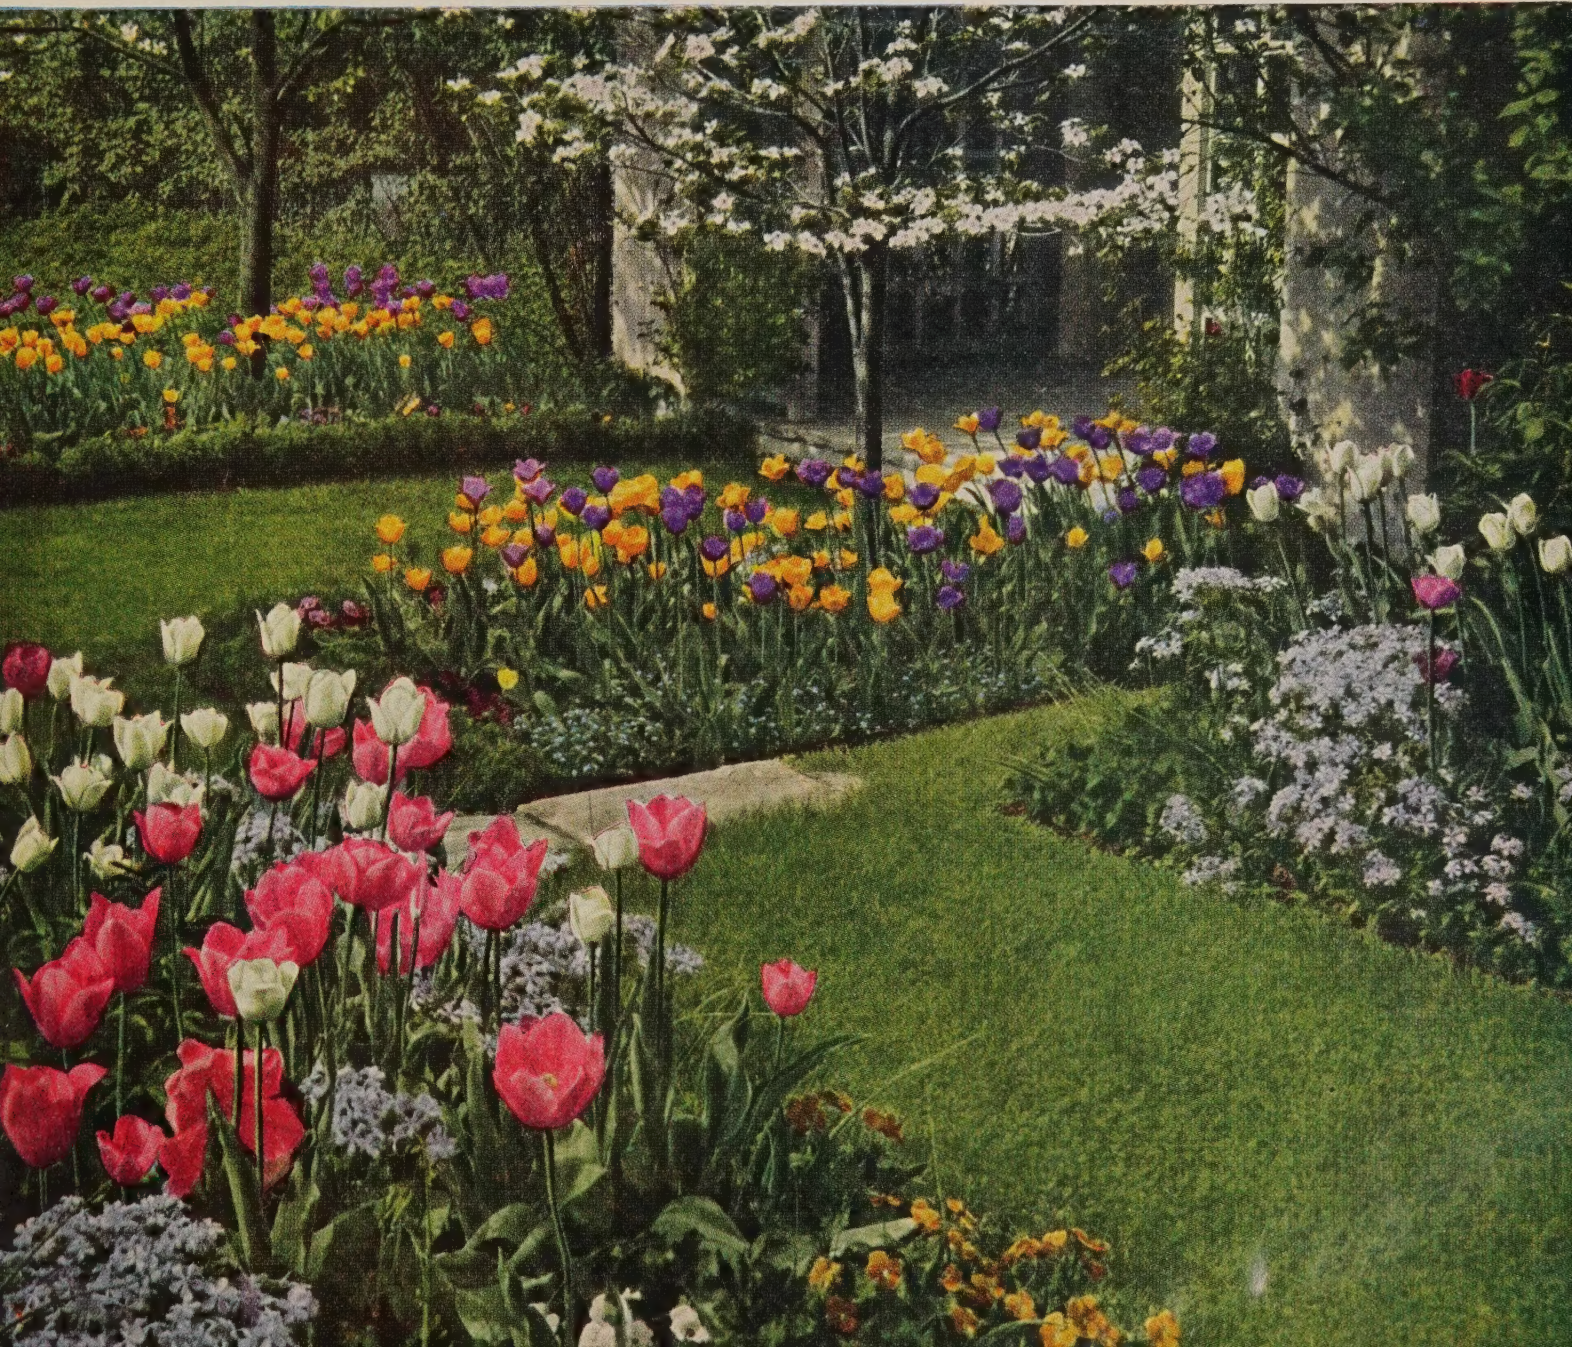

After the ground is frozen to a depth of 4 to 5 inches, put on a cover of straw or leaves and do not remove it until early spring. Tulips and Hyacinths should be taken up each spring after blooming but Daffodils may be left in the ground for three or four years at a time. In any case, the foliage should be allowed to mature, either where they have flowered or after the bulbs have been taken up. Crocuses should not be planted where grass is kept clipped. To obtain best effects with them and other small-flowering bulbs it is essential to use them in large quantities.

Lilies demand good drainage. This may be secured by placing a quantity of sand below each bulb or by mixing peat or humus with the soil. Tall varieties should be planted where they receive protection from high winds; all enjoy partial shade.

Hunt's Prospect Park

This famous tried formula will produce a rich, velvety lawn in four to six weeks, which will remain green throughout the year. For making new lawns we recommend 8 bushels to the acre; 1 pound of seed will sow 150 square feet; for renovating use one-half this quantity. Lb. \$1.25; 5 lbs. \$5.00; 20 lbs. \$17.50; 100 lbs. \$80.00.

MIXTURE FOR SHADY LAWNS AND UNDER TREES. Quickly produces an abundant and even growth of lovely green grass where ordinary lawn seed mixtures fail. Lb. \$1.50; 5 lbs. \$6.00; 20 lbs. (bus.) \$21.00; 100 lbs. \$95.00.

LAWN RESTORING MIXTURE. A mixture of fine grasses specially suited for renovating old lawns. Will produce a rich and lasting turf. Sow at the rate of 4 pounds per 1000 square feet. Lb. \$1.25; 5 lbs. \$5.00; 20 lbs. \$17.50; 100 lbs. \$80.00.

WHITE CLOVER (*Trifolium repens*). Helps keep lawns green all year. Lb. \$2.00; 5 lbs. \$9.00.

WILD WHITE CLOVER. $\frac{1}{2}$ lb. \$1.50; lb. \$2.50.

As we go to press the grass seed market is very uncertain, but prices quoted will be maintained wherever possible.
